AFTER

Review Committee

Parallel Processes

Components of the Proposal

IANA function stability & reliability

ICANN to continue as the IANA Numbering Services Operator, with provisions for orderly transition to another operator should such need arise

RIR to establish SLA with IANA operator

Replace role of NTIA with the RIRs: RIRs to establish an SLA with the IANA Numbering Services Operator

Community-based Review committee

Establish a community-based Review Committee to review the performance of IANA Numbering Services and provide advice to the RIRs

IPRs with the community

Intellectual property rights (IPR) related to the IANA services stay with the community
