Why sponsor LACNIC events?

As part of its efforts to promote the creation of synergies and initiatives for the construction of an open, stable and secure Internet in Latin America and the Caribbean, LACNIC organizes two annual events in different cities throughout the region.

LACNIC events are extremely relevant for the Latin American and Caribbean Internet community, as they provide spaces for multistakeholder dialogue, high-level technical training, and the discussion of topics that are of the greatest interest to the Internet community.

More than 600 professionals gather on site to attend the various activities and about 2,000 more participate remotely. These professionals represent leading Internet organizations as well as governments, academia and civil society.
